BRAIN RESEARCH

VOL. 580 NOS. 1/2 **CONTENTS** **15 MAY 1992**

Announcement from the Publisher v

Research Reports

Amphiphilic behavior of a brain tetrameric acetylcholinesterase form lacking the plasma membrane anchoring domain
M.-E. Fuentes and N.C. Inestrosa (Chile) 1

Repeated injections of cocaine inhibit the serotonergic regulation of prolactin and renin secretion in rats
A.D. Levy, P.A. Rittenhouse, Q. Li, A.M. Bonadonna, M.C. Alvarez Sanz, J.E. Kerr, C.L. Bethea and L.D. van de Kar (USA) 6

Chronic neonatal MK-801 treatment results in an impairment of spatial learning in the adult rat
J.A. Gorter and J.P.C. de Bruin (The Netherlands) 12

Asymmetric elevation of striatal dopamine D_2 receptors in the *chakragati* mouse: neurobehavioral dysfunction in a transgenic insertional mutant
L.W. Fitzgerald, K.J. Miller, A.K. Ratty, S.D. Glick, M. Teitler and K.W. Gross (USA) 18

Evoked responses from an in vitro slice preparation of a primary gustatory nucleus: the vagal lobe of goldfish
T.E. Finger and T.V. Dunwiddie (USA) 27

The neuroprotective actions of 2,3-dihydroxy-6-nitro-7-sulfamoyl-benzo(F)quinoxaline (NBQX) in a rat focal ischaemia model
R. Gill, L. Nordholm and D. Lodge (UK) 35

Decreased brain *N*-acetylaspartate in Huntington's disease
D.S. Dunlop, D.M. Mc Hale and A. Lajtha (USA) 44

Neuronal multipotentiality: evidence for network representation of physiological function
E.B. Montgomery, Jr., M.H. Clare, S. Sahrmann, S.R. Buchholz, L.S. Hibbard and W.M. Landau (USA) 49

Vasopressin-containing neurons of the suprachiasmatic nuclei inhibit corticosterone release
A. Kalsbeek, R.M. Buijs, J.J. van Heerikhuize, M. Arts and T.P. van der Woude (The Netherlands) 62

Maintenance and synthesis of proteins for an anucleate axon
R.A. Sheller and G.D. Bittner (USA) 68

Ventral pontine catecholaminergic pathway mediates the vasopressin response to splanchnic osmostimulation in conscious rats
M.S. King and A.J. Baertschi (USA) 81

Disappearance of circadian rhythms in Parkinson's disease model induced by 1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine in dogs
T. Hineno, M. Mizobuchi, K. Hiratani, Y. Inami and Y. Kakimoto (Japan) 92

Potassium-induced long-term potentiation in rat hippocampal slices
M.W. Fleck, A.M. Palmer and G. Barrionuevo (USA) 100

Infusions of 6-hydroxydopamine into the nucleus accumbens abolish the analgesic effect of amphetamine but not of morphine in the formalin test
P.B.S. Clarke and K.B.J. Franklin (Canada) 106

Insulin-like peptide(s) in the central nervous system of the snail *Helisoma duryi*
H.R. Khan, B. Griffond and A.S.M. Saleuddin (Canada, France) 111

The effect of glutamate antagonists on c-fos expression induced in spinal neurons by irritation of the lower urinary tract
L.A. Birder and W.C. de Groat (USA) 115

The effects of A- and C-fiber stimulation on patterns of neuropeptide immunostaining in the rat superficial dorsal horn
C.M. Klein, R.E. Coggeshall, S.M. Carlton and L.S. Sorkin (USA) 121

Post-lesion administration of the NMDA receptor antagonist MK-801 does not impair motor recovery after unilateral sensorimotor cortex injury in the rat
L.B. Goldstein and A. Coviello (USA) 129

Electrophysiological and anatomical studies on thalamic mediodorsal nucleus projections onto the prefrontal cortex in the cat
I. Tanibuchi (Japan) 137

Correlation between the induction of an immediate early gene, *zif/268*, and long-term potentiation in the dentate gyrus
C.L. Richardson, W.P. Tate, S.E. Mason, P.A. Lawlor, M. Dragunow and W.C. Abraham (New Zealand) 147

Ibotenic acid lesions in the amygdaloid central nucleus but not in the lateral subthalamic area prevent the acquisition of differential Pavlovian conditioning of bradycardia in rabbits
P.M. McCabe, C.G. Gentile, C.G. Markgraf, A.H. Teich and N. Schneiderman (USA) 155

Male rat copulation following 6-OHDA lesions of the medial preoptic area: resistance to repeated administration and rapid behavioral recovery
T. Bazzett, L. Lumley, D. Bitran, V. Markowski, R. Warner and E. Hull (USA) 164

The effect of stimulus duration on noxious-stimulus induced c-*fos* expression in the rodent spinal cord
E. Bullitt, C.L. Lee, A.R. Light and H. Willcockson (USA) 172

Effects of diabetes on stress-induced analgesia in mice
J. Kamei, N. Kawashima, Y. Ohhashi and Y. Kasuya (Japan) 180

Impulses of variable amplitude recorded from cell-attached patches on small hippocampal neurons
S. Johansson and P. Århem (Sweden) 185

(contents continued on p. 360)

(contents continued)

Myoclonus in the decerebrate cat produced by gallamine
W. Burke and I. Ramzan (Austrialia) 189
Protective effects of brain hypothermia on behavior and histopathology following global cerebral ischemia in rats
E.J. Green, W.D. Dietrich, F. van Dijk, R. Busto, C.G. Markgraf, P.M. McCabe, M.D. Ginsberg and N. Schneiderman (USA) 197
Comparison of neuroendocrine and behavioral effects of ipsapirone, a 5-HT_{1A} agonist, in three stress paradigms: immobilization, forced swim and conditioned fear
P.A. Rittenhouse, E.A. Bakkum, P.A. O'Connor, M. Carnes, C.L. Bethea and L.D. van de Kar (USA) 205
Cortical input to parvalbumin-immunoreactive neurones in the putamen of the squirrel monkey
S.R. Lapper, Y. Smith, A.F. Sadikot, A. Parent and J.P. Bolam (UK, Canada) 215
Dynorphin A-(1–17) and dynorphin B are released from in vitro superfused rat hypothalami. Effects of depolarizing agents and ovariectomy
S. Spampinato, M. Canossa, T. Bachetti, G. Campana, G. Murari and S. Ferri (Italy) 225
A novel monoclonal antibody against carbohydrates of L1 cell adhesion molecule causes an influx of calcium in cultured cortical neurons
K. Itoh, H. Kawamura and H. Asou (USA, Japan) 233
Neural and endocrine sensitivities to opioids decline as a function of multiparity in the rat
P.E. Mann and R.S. Bridges (USA) 241
The functional anatomy of manual motor behavior after unilateral frontal lobe lesions
R.K. Deuel (USA) 249
N-Methyl-D-aspartate (NMDA) and opioid receptors mediate dynorphin-induced spinal cord injury: behavioral and histological studies
R. Bakshi, R.-X. Ni and A.I. Faden (USA) 255
A comparison of the effects of the 5-HT_1 agonists TFMPP and RU 24969 on feeding following peripheral or medial hypothalamic injection
P.J. Fletcher, Z. H. Ming, M.H. Zack and D.V. Coscina (Canada) 265
Reduced density of NMDA receptors and increased sensitivity to dizocilpine-induced learning impairment in aged rats
D.K. Ingram, P. Garofalo, E.L. Spangler, C.R. Mantione, I. Odano, E.D. London (USA) 273
Action potentials produce a long-term enhancement of M-current in frog sympathetic ganglion
A. Kirkwood and J.E. Lisman (USA) 281
Morphological and functional development of the suprachiasmatic nucleus in transplanted fetal hypothalamus
R. Aguilar-Roblero, S. Shibata, J.C. Speh, R. Drucker-Colín and R.Y. Moore (México, Japan, USA) 288
Impairment of endothelium-dependent dilatation of the basilar artery during diabetes mellitus
W.G. Mayhan (USA) 297
Plasminogen activators in the neuromuscular system of the wobbler mutant mouse
B. Blondet, G. Barlovatz-Meimon, B.W. Festoff, C. Soria, J. Soria, F. Rieger and D. Hantaï (France, USA) 303
[^{3}H]Nipecotic acid binding to GABA uptake sites in human brain
I. Sundman, U. Lernmark and J. Marcusson (Sweden) 311
Modulation of net outward current in cultured neurons by angiotensin II: involvement of AT_1 and AT_2 receptors
J. Kang, C. Sumners and P. Posner (USA) 317
The effects of ibotenate lesions of the median preoptic nucleus on experimentally-induced and circadian drinking behavior in rats
J.T. Cunningham, T. Beltz, R.F. Johnson and A. K. Johnson (USA) 325

Short Communications

Insulin-specific sensitization of cultured cerebrocortical neurons to glutamate excitotoxicity
M. Schäfer and S.L. Erdö (FRG) 331
Effect of chronic pre- and post-natal low-dose ethanol exposure on brain enolase isoenzyme activities
K. Harada, V. Adams and M. Okamoto (USA) 334
Differential effects of right-sided and left-sided orchidectomy on lateral asymmetry of LHRH cells in the mouse brain
Y. Inase and T. Machida (Japan) 338
Glutamate selectively increases the high-threshold Ca^{2+} channel current in sensory and hippocampal neurons
S.L. Mironov and H.D. Lux (FRG) 341
Effects of Ca^{2+} antagonists and aminoglycoside antibiotics on Ca^{2+} current in isolated outer hair cells of guinea pig cochlea
T. Nakagawa, S. Kakehata, N. Akaike, S. Komune, T. Takasaka and T. Uemura (Japan) 345
Enhancement of acetylcholine release during REM sleep in the caudomedial medulla as measured by in vivo microdialysis
T. Kodama, Y.-Y. Lai and J.M. Siegel (USA) 348
Cholinergically induced REM sleep triggers Fos-like immunoreactivity in dorsolateral pontine regions associated with REM sleep
P.J. Shiromani, T.S. Kilduff, F.E. Bloom and R.W. McCarley (USA) 351
